Mounting Details:
Mounting with base models:
With the expansions, while unpacking the unit, user will find 2 screws already attached with base bottom case. Fix the expansion with the HMI as shown below with these screws. Expansion connector will also be fixed with the expansion female connector given on base HMI.
Apply torque 0.1Nm while fixing with base unit.

Mounting with FP3043TN-E and FP3043T-E models:
For 7” and 10.2” HMI models, the procedure of mounting expansions is same. Only instead of horizontal mounting, expansions will mount in vertical directions.
Hence accordingly these base are having facility to add 3 and 5 expansions at a time respectively. Example is shown here.
